ETM’s Logistics and Supply Chain Management Certificate trains professionals to better stabilize the supply chain based upon cooperative, systemic measurements, correct communications between elements, rapid responses to actual demand, and careful selection of inventory buffers and locations. The certificate courses look at contributions of design for manufacturability, six sigma quality improvement, operation theories, information systems, enterprise planning, and theory of constraints replenishment.

The graduate certificate requires the following courses (12 credits):

- E M 530 Applications of Constraints Management
- E M 555 Enterprise Resource Management or E M 590 Design for Product and Service Realization
- E M 560 Integrated Supply Chain Management
- E M 567 Systems Supportability and Logistics Management

Course descriptions and syllabi can be found at etm.wsu.edu.
Washington State University’s online Engineering and Technology Management (ETM) program offers a master’s degree in Engineering and Technology Management and graduate certificates in seven specialized areas. Courses are designed to provide working engineers with the skills to manage projects, people, and technology. The program is tailored for professionals who want to advance their careers while still working fulltime. The program has been consistently ranked as one of the top 30 online engineering programs in the nation.

WSU is accredited by the Northwest Commission on Colleges and Universities (NWCCU).

All courses are offered online and use an innovative blend of traditional classroom instruction and the latest in video streaming and web conferencing technologies that allow courses to be delivered live to students anywhere in the world. Innovative program software allows faculty and students to interact with each other online. The convenience and flexibility of the program is ideal for the working professional. Mobile capabilities are also available. Classes are archived and available to review at any time.

An ETM graduate certificate requires four courses (12 credit hours) in specialized areas. A certificate is awarded upon completion of these courses. Course credits earned for a certificate may also apply to a master’s degree in the ETM Program or other graduate degree programs. A student may earn more than one certificate and may work on the certificate and master’s program concurrently.

Minimum requirements
- Bachelor’s degree (minimum 3.0 GPA)
- Transcripts
- Resume
- Personal Statement

WSU Admissions
Students must be admitted to WSU’s Graduate School to receive a graduate certificate.
