

### EM701 Option 2 Project Enrollment Form

Student name: \_\_\_\_\_

Chair of committee\*: \_\_\_\_\_

Committee member 1\*: \_\_\_\_\_

Committee member 2\*: \_\_\_\_\_

(Optional) mentor & contact info: \_\_\_\_\_

Tentative graduation date: \_\_\_\_\_

Proposed topic or title: \_\_\_\_\_

---

Provide a description of the project by answering each the following questions in one or two sentences each. These are your initial thoughts on the work project or research project that you will complete in EM701 Option 2: project:

1. What is the problem you want to address; why is it a tough problem and why is it important?
2. What has been tried before to address this problem (or similar problems) and what was the outcome?
3. What do you propose to do for your project to address the problem and how is what you are doing any different than what was tried before, or is currently being used, to address or solve this problem?
4. What will be the impact of your completed project; what is your vision of the future based on project success?
5. Which Engineering and Technology Management knowledge areas or topics apply to your proposed work and how do they apply?

\*Please note: The committee above must match the committee on the student's Program of Study (POS). If a change to the committee on the POS is needed, please submit a change of committee form if needed (see: [gradschool.wsu.edu](http://gradschool.wsu.edu) > Forms > Committee Change) to the ETM Academic Coordinator for processing.
